Vessel Compliance Form

2019 - 2022

Swan Yacht Club Inc

Vessel Safety Compliance Report

Principle Owner: Membership No: Vessel Name / Registration No: Pen Number

…… ..... …… /……/……

Disclaimer:

This Vessel Safety Compliance is a prerequisite for the mooring and slipping of vessels within the confines of the Swan Yacht Club Inc Marine Area Water Lease and Slipping Facilities. These Vessel Compliance Requirements are designed to complement Western Australian marine safety requirements for recreational craft. It is the vessel owner's responsibility to ensure that the vessel complies with all relevant state and federal regulations and standards. Confirmation of compliance with SYC Inc requirements does not infer compliance with those regulations or standards.

Note:

The Compliance Inspection Officer's *only* responsibility is to check for vessel compliance through visual and basic operational observations e.g. observe working bilge pumps, radios, navigation lights etc. The obligation is on the owner to demonstrate to the compliance officer that the relevant item is operational or compliant.

FINDINGS

(KEY: Y – Yes / N – No / NA – Not Applicable**)**

ENGINE(S) / PROPULSION

ITEM	CHECKS & COMMENTS	
Specifications		
Capable of Starting	Y / N / NA	

Note: *Prior to any petrol inboard engine being started by the owner the engine hatch/s must be opened and the bilge blower/s and gas detectors activated.*

ENGINE COMPARTMENT

Generator	Y / N / NA	(marine type?)
Bilge pumps	Y / N / NA	(No: …… test, float switches working?)
Bilge pumps - manual	Y / N / NA	(test)
Bilge appearance	Y / N / NA	Oil or oily water

FUEL SYSTEM

ITEM	CHECKS & COMMENTS	
Tank/s		
Shut off valves	Y / N / NA	(accessible?)
Grounding	Y / N / NA	(tanks and filler points)

SANITATION SYSTEM

ITEM	CHECKS & COMMENTS	
Sea cock	Y / N / NA	(Leaks, operational?)

GALLEY

Note: *If "Fair" or "Poor" condition is reported the appliance or system must not be used until checked by a*

ITEM		CHECKS & COMMENTS	
Fuel type - LPG?		Permanent LPG installations shall be in accordance with relevant requirements of **AS 5601** & **AS 1799.1** (Cooking and Heating Systems)
